

Introduction

This notice is intended to provide customers with an update following customer notice LLWR-CN-2014-19 with regard to the TC03 Package design and its associated Over-Lid.

TC03 Over-Lid Pre-Inspections

Prior to using any Over-Lids, all consignors are reminded to carry out visual inspection checks of the Over-Lid to ensure it is suitable for use. The TC03 Packing Handling Instructions (revision F) section 5.3.1 can be referred to as a pass/fail criteria (as applicable) for identified damage. If the Over-Lid is found to be defective or damaged beyond the limits listed in section 5.3.1, it must not be used and LLWR notified of its serial number and location.

TC03 Package Design Change

Due to continuing customer demand, the TC03 Third Height IP-2 ISO Container will continue to be supplied by LLWR in 2015. The TC03 Lid closure is under design modification to engineer out the need for an Over-Lid to be used when loaded. This design change is scheduled for completion by end June 2015. Consequently all TC03 Packages manufactured by LLWR from July 2015 onwards will incorporate the new lid closure design and will NOT require an Over-Lid for transport.

TC03 Over-Lid Supply and Transitional Arrangements

All TC03 packages in circulation or in manufacture during period February 2015 – June 2015 under the existing IP-2 License conditions (IP-2/GB/TC03/IP-96 - issue 4) are required to be fitted with an Over-Lid for transport when loaded.

In support of the transitional period (6 months) LLWR is manufacturing a small stock (approx. 50) of TC03 Over-Lids to support transition to the new TC03 package design variant.

- Customers who have custody of TC03 Packages and TC03 Over-Lids must ensure their TC03 Packages are paired to an Over-Lid. LLWR Packaging Services must be informed of the serial numbers of the TC03 Package and its paired Over-Lid.
- Customers who have custody of TC03 Packages that are not paired with an Over-Lid. LLWR can supply new Over-Lids at a cost of £1500 per Over-Lid, exclusive of transport.
- Customers seeking supply of new TC03 Packages during this transitional period will be offered supply of new TC03 packages fitted with new Over-Lids, inclusive of two sets of Shear Pins at a cost of £11,300, exclusive of transport.

Note – TC03 Over-Lids can be returned (except when used for VLLW Disposal) and re-used, at customers request and cost.
