

**Introduction**

This notice is to inform customers that LLW Repository Ltd Guidance Note PAA/GN15 – Waste Loading Plan Preparation Guidance and WSC-FOR-WLP - Waste Loading Plan Information have both been updated and reissued to the LLWR website

**PAA/GN15 – Waste Loading Plan Preparation Guidance**

PAA/GN 15 has been updated to make it more user friendly for customers, specifically around what information LLWR require from the customer when submitting a WLP for review.

A section to provide guidance on developing a WLP and supporting calculations has been added. This highlights seven key pieces of information that are required in any WLP submission.

A new WLP template has also been created for customer use, which is available upon request.

**WSC-FOR-WLP – Waste Loading Plan Information Form**

The Waste Loading Plan Information Form has been updated to incorporate changes to the titles and descriptors of the three WLP types. This will now be version 3.3.

These changes do not affect in any way the types of WLP available. LLWR will accept Version 3.2 of WSC-FOR-WLP for a 3 month period which will end 01/05/17, after this date only Version 3.3 of WSC-FOR-WLP will be accepted for any WLP submissions.

**Further Information and Questions**
