

**Introduction**

Following on from Customer Notices LLWR-CN-2017-13 and LLWR-CN-2017-14 this notice is to update all operators of LLWR approved TC14 and TC19 drums of the transitional arrangements for the introduction of the new modified clamp band assembly. Please circulate this information to all relevant personnel within your organisation.

Customers who have requested clamp bands are being issued with the replacement bands. All new requests are being manufactured with the new clamp band arrangements (see Customer Notice LLWR-CN-2017-14).

**Drum Shipments**

All TC14 or TC19 drums fitted with the new clamping band assembly are now covered by Operational Concessions OCC160 (for TC14) and OCC 163 (for TC19) are available on the LLWR website under Packaging IAEA Licensed Packages and Transport Systems alongside the current Certificate of Approval (see links below). The concessions are valid until the 30<sup>th</sup> June 2017. The concession details additional pre-filling and pre-despatch checks to be performed on the new clamping band.

The concession does not apply to drums fitted with the original clamping band assembly, which will still operate under the existing license and Packing and Handling Instructions.

The TC14 and TC19 Packing and Handling instructions will be updated to incorporate the additional checks and the Certificate of Approval will be reissued before the concession expires.
